### THE MISSION

Attempt to unlock The Vault by cracking the "secret code" in just 30 seconds! Using the hand-held trigger, try to stop the orbiting WHITE light in a RED "locked" zone. Progress through all 5 digits of the code and you win!

### SKILL SETTINGS

Prior to starting the game, easily select one of the four difficulty levels. With varying degrees of difficulty, The Vault provides entertainment for a wide range of player abilities.

### VISUAL AND AUDIBLE INDICATORS

Monitor your game progress using the countdown timer and LED indicators of the "secret code". Successfully crack the code and the tumblers turn GREEN, along with an audible win soundtrack and scrolling "WINNER" message. The time remaining is then displayed should you wish to better your time or have a leaderboard challenge. Fail to unlock The Vault in 30 seconds and the tumblers turn RED, along with an audible siren and "FAIL" scrolling message.

The 30 second timer will automatically begin on game start. Monitor the game progress by watching the digits of the code UNLOCK before time runs out.

# THE DOC

### DESCRIPTION

Top Doc takes a classic board game, and scales it up while adding a technology twist for greater appeal and improved game play. With Top Doc, the players wand is actually an electromagnet. So when the player touches the wand to a game piece, it automatically latches onto the wand and magnetizes. While carefully removing the piece, should contact be made with the cutout, the magnet automatically turns off and the piece drops. An audible beep is triggered along with a visual light, and the unit records the mistake on a large 3 inch LED display. Games are available in Easy, Medium, or Hard difficulty levels, and can be easily changed by swapping out the game pieces.
